

**Deer Ridge Landscape Project (LLAD 21-1) Construction Status Update – Jan. 31, 2022**

As a result of the ballot count on August 25, 2021, LLAD 21-1 was formed by action of the City Council on September 14, 2021. The design consultant has prepared the final construction plans and bid documents. A staff report was taken to City Council on January 25, 2022 to amend the CIP to add the construction portion of the project. We anticipate putting the project out to bid the week of February 7th with construction to begin in spring 2022.
