Mr. Bruce H. Wolfe, Executive Officer
California Regional Water Quality Control Board
San Francisco Bay Region
1515 Clay Street, Suite 1400
Oakland, CA 94612

Ms. Pamela Creedon, Executive Officer
California Regional Water Quality Control Board
Central Valley Region
11020 Sun Center Drive, #200
Rancho Cordova, CA 95670-6114

Dear Mr. Wolfe and Ms. Creedon:

Enclosed is the 2017-18 Annual Report for the City of Brentwood, which is required by and in accordance with Provision C.17 in National Pollutant Discharge Elimination System (NPDES) Permit Number CAS612008 issued by the San Francisco Bay Regional Water Quality Control Board and/or by Provision C.13 in NPDES Permit Number CA0083313 issued by the Central Valley Regional Water Quality Control Board.

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fines and imprisonment for knowing violations.

Sincerely,

Jagtar ("Jack") Dhaliwal, P.E.
Assistant Public Works Director

Section 1 – Permittee Information

Background Information					
Permittee Name:	City of Brentwood				
Population:	62,834				
NPDES Permit No.:	CAS612008 (San Francisco Bay RWQCB Permit) and/or CA00883313 (Central Valley RWQCB Permit)				
Order Number:	R2-2015-0049 (San Francisco Bay RWQCB Permit) and/or R5-2010-0102 (Central Valley RWQCB Permit)				
Reporting Time Period (month/year):	July 2017 through June 2018				
Name of the Responsible Authority:	Jagtar Dhaliwal	Title:	Assistant Director of Public Works/Engineering		
Mailing Address:	150 City Park Way				
City:	Brentwood	Zip Code:	94513	County:	Contra Costa
Telephone Number:	(925) 516-5128	Fax Number:	(925) 516-5421		
E-mail Address:	jdhaliwal@brentwoodca.gov				
Name of the Designated Stormwater Management Program Contact (if different from above):	Meghan Laporta	Title:	Associate Engineer		
Department:	Public Works/Engineering				
Mailing Address:	150 City Park Way				
City:	Brentwood	Zip Code:	94513	County:	Contra Costa
Telephone Number:	(925) 516-5171	Fax Number:	(925) 516-5421		
E-mail Address:	mlaporta@brentwoodca.gov				

Section 2 - Provision C.2 Reporting Municipal Operations

Program Highlights and Evaluation

Highlight/summarize activities for reporting year:

Summary:

Participation in the countywide program’s Municipal Operations Committee/Work Group. Refer to the C.2 Municipal Operations section of the countywide Program’s FY 17-18 Annual Report for a description of activities implemented at the countywide and/or regional level.

C.2.a. ► Street and Road Repair and Maintenance

Place a **Y** in the boxes next to activities where applicable BMPs were implemented. If not applicable, type **NA** in the box and provide an explanation in the comments section below. Place an **N** in the boxes next to activities where applicable BMPs were not implemented for one or more of these activities during the reporting fiscal year, then in the comments section below provide an explanation of when BMPs were not implemented and the corrective actions taken.

Y	Control of debris and waste materials during road and parking lot installation, repaving or repair maintenance activities from polluting stormwater
Y	Control of concrete slurry and wastewater, asphalt, pavement cutting, and other street and road maintenance materials and wastewater from discharging to storm drains from work sites.
Y	Sweeping and/or vacuuming and other dry methods to remove debris, concrete, or sediment residues from work sites upon completion of work.

Comments:

C.2.b. ► Sidewalk/Plaza Maintenance and Pavement Washing

Place a **Y** in the boxes next to activities where applicable BMPs were implemented. If not applicable, type **NA** in the box and provide an explanation in the comments section below. Place an **N** in the boxes next to activities where applicable BMPs were not implemented for one or more of these activities during the reporting fiscal year, then in the comments section below provide an explanation of when BMPs were not implemented and the corrective actions taken.

Y	Control of wash water from pavement washing, mobile cleaning, pressure wash operations at parking lots, garages, trash areas, gas station fueling areas, and sidewalk and plaza cleaning activities from polluting stormwater
Y	Implementation of the BASMAA Mobile Surface Cleaner Program BMPs

Comments:

C.2.c. ► Bridge and Structure Maintenance and Graffiti Removal

Place a **Y** in the boxes next to activities where applicable BMPs were implemented. If not applicable, type **NA** in the box and provide an explanation in the comments section below. Place an **N** in the boxes next to activities where applicable BMPs were not implemented for one or more of these activities during the reporting fiscal year, then in the comments section below provide an explanation of when BMPs were not implemented and the corrective actions taken.

Y	Control of discharges from bridge and structural maintenance activities directly over water or into storm drains
Y	Control of discharges from graffiti removal activities
Y	Proper disposal for wastes generated from bridge and structure maintenance and graffiti removal activities
Y	Implementation of the BASMAA Mobile Surface Cleaner Program BMPs for graffiti removal
Y	Employee training on proper capture and disposal methods for wastes generated from bridge and structural maintenance and graffiti removal activities.
N/A	Contract specifications requiring proper capture and disposal methods for wastes generated from bridge and structural maintenance and graffiti removal activities.

Comments: **There are not any contracts for these services.**

C.2.e. ► Rural Public Works Construction and Maintenance	
Does your municipality own/maintain rural ¹ roads:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
If your answer is No then skip to C.2.f.	
Place a Y in the boxes next to activities where applicable BMPs were implemented. If not applicable, type NA in the box and provide an explanation in the comments section below. Place an N in the boxes next to activities where applicable BMPs were not implemented for one or more of these activities during the reporting fiscal year, then in the comments section below provide an explanation of when BMPs were not implemented and the corrective actions taken.	
<input type="checkbox"/>	Control of road-related erosion and sediment transport from road design, construction, maintenance, and repairs in rural areas
<input type="checkbox"/>	Identification and prioritization of rural road maintenance based on soil erosion potential, slope steepness, and stream habitat resources
<input type="checkbox"/>	No impact to creek functions including migratory fish passage during construction of roads and culverts
<input type="checkbox"/>	Inspection of rural roads for structural integrity and prevention of impact on water quality
<input type="checkbox"/>	Maintenance of rural roads adjacent to streams and riparian habitat to reduce erosion, replace damaging shotgun culverts and excessive erosion
<input type="checkbox"/>	Re-grading of unpaved rural roads to slope outward where consistent with road engineering safety standards, and installation of water bars as appropriate
<input type="checkbox"/>	Inclusion of measures to reduce erosion, provide fish passage, and maintain natural stream geomorphology when replacing culverts or design of new culverts or bridge crossings
Comments including listing increased maintenance in priority areas:	

¹Rural means any watershed or portion thereof that is developed with large lot home-sites, such as one acre or larger, or with primarily agricultural, grazing or open space uses.

C.2.f. ► Corporation Yard BMP Implementation

Place an **X** in the boxes below that apply to your corporations yard(s):

<input type="checkbox"/>	We do not have a corporation yard
<input checked="" type="checkbox"/>	Our corporation yard is a filed NOI facility and regulated by the California State Industrial Stormwater NPDES General Permit
<input type="checkbox"/>	We have a Stormwater Pollution Prevention Plan (SWPPP) for the Corporation Yard(s)

Place an **X** in the boxes below next to implemented SWPPP BMPs to indicate that these BMPs were implemented in applicable instances. If not applicable, type **NA** in the box. If one or more of the BMPs were not adequately implemented during the reporting fiscal year then indicate so and explain in the comments section below:

<input checked="" type="checkbox"/>	Control of pollutant discharges to storm drains such as wash waters from cleaning vehicles and equipment
<input type="checkbox"/>	Routine inspection prior to the rainy seasons of corporation yard(s) to ensure non-stormwater discharges have not entered the storm drain system
<input checked="" type="checkbox"/>	Containment of all vehicle and equipment wash areas through plumbing to sanitary or another collection method
<input checked="" type="checkbox"/>	Use of dry cleanup methods when cleaning debris and spills from corporation yard(s) or collection of all wash water and disposing of wash water to sanitary or other location where it does not impact surface or groundwater when wet cleanup methods are used
<input checked="" type="checkbox"/>	Cover and/or berm outdoor storage areas containing waste pollutants

Comments: **The City's Corporation Yard is self-contained and no run-off is discharged to Marsh Creek. Surface drainage is discharged to on-site percolation ponds.**

If you have a corporation yard(s) that is not an NOI facility, complete the following table for inspection results for your corporation yard(s) or attach a summary including the following information:

Corporation Yard Name	Corp Yard Activities w/ site-specific SWPPP BMPs	Inspection Date ²	Inspection Findings/Results	Date and Description of Follow-up and/or Corrective Actions

² Minimum inspection frequency is once a year during September.

Section 3 - Provision C.3 Reporting New Development and Redevelopment

C.3.b.iv.(2) ► Regulated Projects Reporting

Fill in attached table **C.3.b.iv.(2)** or attach your own table including the same information.
 See attached table **C.3.b.iv.(2)**.

C.3.e.iv. ► Alternative or In-Lieu Compliance with Provision C.3.c.

Is your agency choosing to require 100% LID treatment onsite for all Regulated Projects and not allow alternative compliance under Provision C.3.e.?	X	Yes		No
--	---	-----	--	----

Comments (optional):

C.3.e.v ► Special Projects Reporting

1. In FY 2017-18, has your agency received, but not yet granted final discretionary approval of, a development permit application for a project that has been identified as a potential Special Project based on criteria listed in MRP Provision C.3.e.ii(2) for any of the three categories of Special Projects (Categories A, B or C)?		Yes	X	No
2. In FY 2017-18, has your agency granted final discretionary approval to a Special Project? If yes, include the project in both the C.3.b.iv.(2) Table, and the C.3.e.v. Table.		Yes	X	No

If you answered "Yes" to either question,
 1) Complete Table C.3.e.v.
 2) Attach narrative discussion of 100% LID Feasibility or Infeasibility for each project.

C.3.h.v.(2) ► Reporting Newly Installed Stormwater Treatment Systems and HM Controls (Optional)

On an annual basis, before the wet season, provide a list of newly installed (installed within the reporting year) stormwater treatment systems and HM controls to the local mosquito and vector control agency and the Water Board. The list shall include the facility locations and a description of the stormwater treatment measures and HM controls installed.

See attached Table C.3.h.v.(2) for list of newly installed Stormwater Treatment Systems/HM Controls.

C.3.h.v.(3)(a) –(c) and (f) ► Installed Stormwater Treatment Systems Operation and Maintenance Verification Inspection Program Reporting

Site Inspections Data	Number/Percentage
Total number of Regulated Projects (including offsite projects, and Regional Projects) in your agency's database or tabular format at the end of the previous fiscal year (FY16-17)	108
Total number of Regulated Projects (including offsite projects, and Regional Projects) in your agency's database or tabular format at the end of the reporting period (FY 17-18)	120
Total number of Regulated Projects (including offsite projects, and Regional Projects) for which O&M verification inspections were conducted during the reporting period (FY 17-18)	35
Percentage of the total number of Regulated Projects (including offsite projects, and Regional Projects) inspected during the reporting period (FY 17-18)	32% ³

³ Based on the number of Regulated Projects in the database or tabular format at the end of the previous fiscal year, per MRP Provision C.3.h.ii.(6)(b).

C.3.h.v.(3)(d)-(e) ► Installed Stormwater Treatment Systems Operation and Maintenance Verification Inspection Program Reporting

Provide a discussion of the inspection findings for the year and any common problems encountered with various types of treatment systems and/or HM controls. This discussion should include a general comparison to the inspection findings from the previous year.

Summary:

The treatment systems within the City of Brentwood include Hydrodynamic Separators (Primarily CDS Units), Inlet Cartridge Filters, and/or Bio-Retention Facilities. City owned and maintained separators and filters are pumped out annually regardless of the condition. Debris accumulation has not been excessive. Private facilities are inspected annually or less frequently depending on debris accumulation or maintenance indicators. Bio-retention facilities are typically inspected during relatively heavy storm events. Momentary ponding can be observed but eventually infiltrate once the heaviest storm surges have ceased. Maintenance and trash pickup is conducted by landscape maintenance crews.

Common problems include determining and enforcing maintenance responsibility when ownership or management changes, or when multiple businesses discharge to the same system.

Current year findings are similar to the prior year.

Provide a discussion of the effectiveness of the O&M Program and any proposed changes to improve the O&M Program (e.g., changes in prioritization plan or frequency of O&M inspections, other changes to improve effectiveness program).

Summary:

The City of Brentwood maintains a good relationship with the key servicing outfits maintaining the majority of these systems at private facilities throughout the City and we are notified of all the clients receiving their services annually. Owners of facilities that are in need of servicing are typically directed to one of these companies during or subsequent to City staff inspections. Communications with these companies for business development ensures a positive level of follow-up and compliance. No changes are anticipated.

C.3.h.v.(4) ► Enforcement Response Plan

Does your agency have an Enforcement Response Plan for all O&M inspections of stormwater treatment measures?

	Yes	X	No
--	-----	---	----

If No, explain:

The City of Brentwood is transitioning from the Central Valley Region to the San Francisco Bay Region and is currently working on developing an Enforcement Response Plan. An Enforcement Response Plan for all O&M inspections of stormwater treatment measures is anticipated to be completed by July 1, 2019.

C.3.i. ► Required Site Design Measures for Small Projects and Detached Single Family Home Projects

On an annual basis, discuss the implementation of the requirements of Provision C.3.i, including ordinance revisions, permit conditions, development of standard specifications and/or guidance materials, and staff training.

Summary:

BASMAA prepared standard specifications in four fact sheets regarding the site design measures listed in Provision C.3.i, as a resource for Permittees. The Contra Cost Clean Water Program (CCCWP) has modified local ordinances/policies/procedures and forms/checklists to require all applicable projects approved after December 1, 2012 to implement at least one of the site design measures listed in Provision C.3.i. The City of Brentwood’s stormwater ordinance requires that applications for development approvals for projects subject to the permit’s new development requirements include a Stormwater Control Plan meeting the criteria in the most recent version of the Stormwater C.3 Guidebook.

C.3.j.i.(5)(d) ► Green Infrastructure Outreach

On an annual basis, provide a summary of your agency’s outreach and education efforts pertaining to Green Infrastructure planning and implementation.

Summary:

The City of Brentwood is in the process of transitioning from the Central Valley Region to the San Francisco Bay Region and City Engineering staff have been working with the CCCWP staff on GI planning and implementation. Engineering staff met with Planning and Operations staff to educate them on Green Infrastructure.

On April 24, 2018, three engineers from the City attended the Provision C.3 Stormwater Compliance Workshop presented by Dan Cloak, P.E. Topics included: the revised and updated Stormwater C.3 Guidebook, 7th Edition (2017), review of C.3 basics, recent and pending policy and regulatory changes, Green Infrastructure Planning, correctly applying thresholds for C.3 applicability, LID grading and drainage design, self-treating and self-retaining areas, what should appear on construction drawings for bioretention facilities, bioretention facility operation and maintenance, options for Alternative Compliance, and group discussion of issues that arise during development review.

Please refer to the Countywide Program’s FY 17-18 Annual Report for a summary of outreach efforts implemented at the Countywide level.

C.3.j.ii.(2) ► Early Implementation of Green Infrastructure Projects

On an annual basis, submit a list of green infrastructure projects, public and private, that are already planned for implementation during the permit term and infrastructure projects planned for implementation during the permit term that have potential for green infrastructure measures. Include the following information:

- A summary of planning or implementation status for each public and private green infrastructure project that is not also a Regulated Project as defined in Provision C.3.b.ii. (see C.3.j.ii.(2) Table B - Planned Green Infrastructure Projects).
- A summary of how each public infrastructure project with green infrastructure potential will include green infrastructure measures to the maximum extent practicable during the permit term. For any public infrastructure project where implementation of green infrastructure measures is not practicable, submit a brief description of the project and the reasons green infrastructure measures were impracticable to implement (see C.3.j.ii.(2) Table A - Public Projects Reviewed for Green Infrastructure).

Background Information:

Describe how this provision is being implemented by your agency, including the process used by your agency to identify projects with potential for green infrastructure, if applicable.

The City of Brentwood is utilizing the BASMAA May 6, 2016 document, “Guidance for Identifying Green Infrastructure Potential in Municipal Capital Improvement Projects” to review its Capital Improvements Program (CIP) for Green Infrastructure opportunities.

Summary of Planning or Implementation Status of Identified Projects:

See attached Tables C.3.j.ii.(2)-A and C.3.j.ii.(2)-B for the required information, and any additional notes provided here (optional).

The City of Brentwood, transitioning from the Central Valley Region to the San Francisco Bay Region, is not bound to MRP 2.0. However, whenever possible, the City strives to stay current with the San Francisco Bay Region. In this case, we have begun an effort to identify locations with potential to provide space needed for green infrastructure that may be needed with future capital improvement projects. The effort at this point involves a desktop survey using GIS and local knowledge of the area to identify locations where C.3 could possibly be incorporated or retrofitted into public improvements. Most of Brentwood’s infrastructure is built in association with development projects, and as such are made subject to C.3 requirements in effect at the time of approval.

C.3.j.iii.(2) ► Participate in Processes to Promote Green Infrastructure

On an annual basis, report on the goals and outcomes during the reporting year of work undertaken to participate in processes to promote green infrastructure.

Please refer to Countywide Program’s FY 17-18 Annual Report for a summary of efforts conducted to help regional, State, and federal agencies plan, design and fund incorporation of green infrastructure measures into local infrastructure projects, including transportation projects.

C.3.j.iv.(2) ► Tracking and Reporting Progress

On an annual basis, report progress on development and implementation of methods to track and report implementation of green infrastructure measures and provide reasonable assurance that wasteload allocations for TMDLs are being met.

Please refer to the Countywide Program’s FY 17-18 Annual Report for a summary of methods being developed to track and report implementation of green infrastructure measures.

C.3.b.iv.(2) ► Regulated Projects Reporting Table (part 1) – Projects Approved During the Fiscal Year Reporting Period

Project Name Project No.	Project Location ⁴ , Street Address	Name of Developer	Project Phase No. ⁵	Project Type & Description ⁶	Project Watershed ⁷	Total Site Area (Acres)	Total Area of Land Disturbed (Acres)	Total New Impervious Surface Area (ft ²) ⁸	Total Replaced Impervious Surface Area (ft ²) ⁹	Total Pre- Project Impervious Surface Area ¹⁰ (ft ²)	Total Post- Project Impervious Surface Area ¹¹ (ft ²)
Private Projects											
Sellers Pointe Phase I (9411)	Guthrie Ln	Sellers Pointe Ventures LLC	1	Residential w/ 26 single-family homes	Lower Marsh Creek	2.95	2.95	76,822	0	0	76,822
Sellers Pointe Phase II (9436)	Sellers Ave	Sellers Pointe Ventures LLC	2	Residential w/ 84 single-family homes	Lower Marsh Creek	13.86	13.86	380,376	0	0	380,376
Sellers Avenue (9421)	Sellers Ave	Meritage Homes	N/A	Residential w/ 96 single-family homes	Lower Marsh Creek	18.4	18.5	407,544	0	0	407,544
Bella Verde (9433)	Balfour Rd	Pulte Homes	N/A	Residential w/ 48 single-family homes	Lower Marsh Creek	6.1	6.1	176,035	0	0	176,035
JFM Development (DR17-009)	609 First St	JFM Development LLC	N/A	Commercial building		.25	.25	10,788	0	0	10,788
Public Projects											
N/A											
Comments:											

⁴Include cross streets

⁵If a project is being constructed in phases, indicate the phase number and use a separate row entry for each phase. If not, enter "NA".

⁶Project Type is the type of development (i.e., new and/or redevelopment). Example descriptions of development are: 5-story office building, residential with 160 single-family homes with five 4-story buildings to contain 200 condominiums, 100 unit 2-story shopping mall, mixed use retail and residential development (apartments), industrial warehouse.

⁷State the watershed(s) in which the Regulated Project is located. Downstream watershed(s) may be included, but this is optional.

⁸All impervious surfaces added to any area of the site that was previously existing pervious surface.

⁹All impervious surfaces added to any area of the site that was previously existing impervious surface.

¹⁰For redevelopment projects, state the pre-project impervious surface area.

¹¹For redevelopment projects, state the post-project impervious surface area.

C.3.b.iv.(2) ► Regulated Projects Reporting Table (part 2) – Projects Approved During the Fiscal Year Reporting Period (private projects)

Project Name Project No.	Application Deemed Complete Date ¹²	Application Final Approval Date ¹³	Source Control Measures ¹⁴	Site Design Measures ¹⁵	Treatment Systems Approved ¹⁶	Type of Operation & Maintenance Responsibility Mechanism ¹⁷	Hydraulic Sizing Criteria ¹⁸	Alternative Compliance Measures ^{19/20}	Alternative Certification ²¹	HM Controls ^{22/23}
Private Projects										
Sellers Pointe Phase I (9411)	2/16/16	4/17/17	Storm Drain Stenciling	Minimize Impervious Surfaces	Bio-retention Facilities	O&M Agreement	C.3.d	N/A	N/A	Not required due to hardened channels
Sellers Pointe Phase II (9436)	2/16/16	7/13/17	Storm Drain Stenciling	Minimize Impervious Surfaces	Bio-retention Facilities	O&M Agreement	C.3.d	N/A	N/A	Not required due to hardened channels
Sellers Avenue (9421)	3/15/16	10/17/17	Storm Drain Stenciling	Minimize Impervious Surfaces	Bio-retention Facilities	O&M Agreement	C.3.d	N/A	N/A	Not required due to hardened channels
Bella Verde (9433)	6/8/17	6/8/17	Storm Drain Stenciling	Minimize Impervious Surfaces	Bio-retention Facilities	O&M Agreement	C.3.d	N/A	N/A	Not required due to hardened channels
JFM Development (DR17-009)	4/4/18	4/4/18	Storm Drain Stenciling	Minimize Impervious Surfaces	Bio-retention Facilities	O&M Agreement	C.3.d	N/A	N/A	Not required due to hardened channels

¹²For private projects, state project application deemed complete date. If the project did not go through discretionary review, report the building permit issuance date.

¹³For private projects, state project application final discretionary approval date. If the project did not go through discretionary review, report the building permit issuance date.

¹⁴List source control measures approved for the project. Examples include: properly designed trash storage areas; storm drain stenciling or signage; efficient landscape irrigation systems; etc.

¹⁵List site design measures approved for the project. Examples include: minimize impervious surfaces; conserve natural areas, including existing trees or other vegetation, and soils; construct sidewalks, walkways, and/or patios with permeable surfaces, etc.

¹⁶List all approved stormwater treatment system(s) to be installed onsite or at a joint stormwater treatment facility (e.g., flow through planter, bioretention facility, infiltration basin, etc.).

¹⁷List the legal mechanism(s) (e.g., O&M agreement with private landowner; O&M agreement with homeowners' association; O&M by public entity, etc...) that have been or will be used to assign responsibility for the maintenance of the post-construction stormwater treatment systems.

¹⁸See Provision C.3.d.i. "Numeric Sizing Criteria for Stormwater Treatment Systems" for list of hydraulic sizing design criteria. Enter the corresponding provision number of the appropriate criterion (i.e., 1.a., 1.b., 2.a., 2.b., 2.c., or 3).

¹⁹For Alternative Compliance at an offsite location in accordance with Provision C.3.e.i.(1), on a separate page, give a discussion of the alternative compliance site including the information specified in Provision C.3.b.v.(1)(m)(i) for the offsite project.

²⁰For Alternative Compliance by paying in-lieu fees in accordance with Provision C.3.e.i.(2), on a separate page, provide the information specified in Provision C.3.b.v.(1)(m)(ii) for the Regional Project.

²¹Note whether a third party was used to certify the project design complies with Provision C.3.d.

²²If HM control is not required, state why not.

²³If HM control is required, state control method used (e.g., method to design and size device(s) or method(s) used to meet the HM Standard, and description of device(s) or method(s) used, such as detention basin(s), bioretention unit(s), regional detention basin, or in-stream control).

**C.3.b.iv.(2) ► Regulated Projects Reporting Table (part 2) –
 Projects Approved During the Fiscal Year Reporting Period
 (public projects)**

Project Name Project No.	Approval Date ²⁴	Date Construction Scheduled to Begin	Source Control Measures ²⁵	Site Design Measures ²⁶	Treatment Systems Approved ²⁷	Operation & Maintenance Responsibility Mechanism ²⁸	Hydraulic Sizing Criteria ²⁹	Alternative Compliance Measures ^{30/31}	Alternative Certification ³²	HM Controls ^{33/34}
Public Projects										
N/A										
Comments:										

²⁴For public projects, enter the plans and specifications approval date.

²⁵List source control measures approved for the project. Examples include: properly designed trash storage areas; storm drain stenciling or signage; efficient landscape irrigation systems; etc.

²⁶List site design measures approved for the project. Examples include: minimize impervious surfaces; conserve natural areas, including existing trees or other vegetation, and soils; construct sidewalks, walkways, and/or patios with permeable surfaces, etc.

²⁷List all approved stormwater treatment system(s) to be installed onsite or at a joint stormwater treatment facility (e.g., flow through planter, bioretention facility, infiltration basin, etc.).

²⁸List the legal mechanism(s) (e.g., maintenance plan for O&M by public entity, etc.) that have been or will be used to assign responsibility for the maintenance of the post-construction stormwater treatment systems.

²⁹See Provision C.3.d.i. "Numeric Sizing Criteria for Stormwater Treatment Systems" for list of hydraulic sizing design criteria. Enter the corresponding provision number of the appropriate criterion (i.e., 1.a., 1.b., 2.a., 2.b., 2.c., or 3).

³⁰For Alternative Compliance at an offsite location in accordance with Provision C.3.e.i.(1), on a separate page, give a discussion of the alternative compliance site including the information specified in Provision C.3.b.v.(1)(m)(i) for the offsite project.

³¹For Alternative Compliance by paying in-lieu fees in accordance with Provision C.3.e.i.(2), on a separate page, provide the information specified in Provision C.3.b.v.(1)(m)(ii) for the Regional Project.

³²Note whether a third party was used to certify the project design complies with Provision C.3.d.

³³If HM control is not required, state why not.

³⁴If HM control is required, state control method used (e.g., method to design and size device(s) or method(s) used to meet the HM Standard, and description of device(s) or method(s) used, such as detention basin(s), bioretention unit(s), regional detention basin, or in-stream control).

C.3.h.v.(2). ► Table of Newly Installed³⁵ Stormwater Treatment Systems and Hydromodification Management (HM) Controls (Optional)

Fill in table below or attach your own table including the same information.

Name of Facility	Address of Facility	Party Responsible ³⁶ For Maintenance	Type of Treatment/HM Control(s)
Sellers Pointe Phase I (9411)	Frontage of each lot	HOA	Bio-retention facility
Sellers Pointe Phase II (9436)	Clare St/Walsh St	Sellers Pointe Ventures	Bio-retention facility
Sellers Avenue (9421)	Amari Ct/Divisi Ct	Meritage Homes (until acceptance)	Bio-retention facility
Bella Verde (9433)	Wildflower Loop/Redberry Loop	HOA	Bio-retention facility
JFM Development (DR17-009)	609 First St	JFM Development	Bio-retention facility

³⁵ "Newly Installed" includes those facilities for which the final installation inspection was performed during this reporting year.

³⁶ State the responsible operator for installed stormwater treatment systems and HM controls.

C.3.e.v.Special Projects Reporting Table												
Reporting Period – July 1 2017 - June 30, 2018												
Project Name & No.	Permittee	Address	Application Submittal Date ³⁷	Status ³⁸	Description ³⁹	Site Total Acreage	Gross Density DU/Acre	Density FAR	Special Project Category ⁴⁰	LID Treatment Reduction Credit Available ⁴¹	List of LID Stormwater Treatment Systems ⁴²	List of Non-LID Stormwater Treatment Systems ⁴³
N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A

Special Projects Narrative

³⁷ Date that a planning application for the Special Project was submitted.

³⁸ Indicate whether final discretionary approval is still pending or has been granted, and provide the date or version of the project plans upon which reporting is based.

³⁹ Type of project (commercial, mixed-use, residential), number of floors, number of units, type of parking, and other relevant information.

⁴⁰ For each applicable Special Project Category, list the specific criteria applied to determine applicability. For each non-applicable Special Project Category, indicate n/a.

⁴¹ For each applicable Special Project Category, state the maximum total LID Treatment Reduction Credit available. For Category C Special Projects also list the individual Location, Density, and Minimized Surface Parking Credits available.

⁴²: List all LID stormwater treatment systems proposed. For each type, indicate the percentage of the total amount of runoff identified in Provision C.3.d. for the Special Project's drainage area.

⁴³List all non-LID stormwater treatment systems proposed. For each type of non-LID treatment system, indicate: (1) the percentage of the total amount of runoff identified in Provision C.3.d. for the Special Project's drainage area, and (2) whether the treatment system either meets minimum design criteria published by a government agency or received certification issued by a government agency, and reference the applicable criteria or certification.

C.3.j.ii.(2) ► Table A - Public Projects Reviewed for Green Infrastructure

Project Name and Location ⁴⁴	Project Description	Status ⁴⁵	GI Included? ⁴⁶	Description of GI Measures Considered and/or Proposed or Why GI is Impracticable to Implement ⁴⁷
Brentwood Boulevard Widening North – Phase I (Havenwood Ave to Homecoming Way)	Project will continue widening roadway to two lanes in each direction and will include: two bike lanes; curbs; gutters; medians; sidewalk on east side; street lights and landscaping on each side of the roadway.	Design Phase	TBD	Bioretention cells will be considered in landscaped areas.
2018 Pavement Management Program on arterial roadway segments	Pavement rehabilitation and preventative maintenance	Design completed March 5, 2018	No	Roadway preservation work typically includes grind and overlay, spot repairs, and slurry seals/crack seals.
Citywide Overhead Utility Replacement – Fairview Ave (Sand Creek Rd to San Jose Ave)	Moves overhead utilities underground along major streets and converts adjacent properties from overhead to underground service connections when necessary	Design completed November 15, 2017	No	Conversion work includes trenching/boring for conduits and electrical.
John Muir Parkway Extension/Foothill Dr – Phase I	Construct two-lane road, median with landscaping, water, storm, sewer, and non-potable mains, street lights.	Design Phase	TBD	Bioretention cells will be considered in landscaped medians.
LED Street Light Conversion – Phase II	Conversion of existing high pressure sodium street lights to LED lights	Design completed November 14, 2017	No	Conversion work includes replacing street light heads. No excavation work.

⁴⁴ List each public project that is going through your agency’s process for identifying projects with green infrastructure potential.

⁴⁵ Indicate status of project, such as: beginning design, under design (or X% design), projected completion date, completed final design date, etc.

⁴⁶ Enter “Yes” if project will include GI measures, “No” if GI measures are impracticable to implement, or “TBD” if this has not yet been determined.

⁴⁷ Provide a summary of how each public infrastructure project with green infrastructure potential will include green infrastructure measures to the maximum extent practicable during the permit term. If review of the project indicates that implementation of green infrastructure measures is not practicable, provide the reasons why green infrastructure measures are impracticable to implement.

C.3.j.ii.(2) ► Table A Continued - Public Projects Reviewed for Green Infrastructure

Project Name and Location ⁴⁸	Project Description	Status ⁴⁹	GI Included? ⁵⁰	Description of GI Measures Considered and/or Proposed or Why GI is Impracticable to Implement ⁵¹
Priority Area 1 Infrastructure Improvements – Heidorn Ranch Rd (EBMUD Aqueduct to Sand Creek Rd Extension west of SR-4)	Existing Heidorn Ranch Rd will be replaced with a new roadway. Improvements consist of lanes with curbs, water, sewer, non-potable water, and gas lines, meandering sidewalk, and street lights.	In process of hiring consultant for design.	TBD	Bioretention cells will be considered when street modification designs are incorporated
Downtown Alley Rehabilitation – North & South Diablo Way	Installation of new sewer facilities and removal or replacement of existing infrastructure.	Preliminary	TBD	TBD
Various Wastewater Treatment Plant Projects	Municipal Service Center construction, plant expansion, security, and non-potable water storage facility.	Designs completed. Various construction phases.	No	Plant is self-contained.

C.3.j.ii.(2) ► Table B - Planned and/or Completed Green Infrastructure Projects

Project Name and Location ⁵²	Project Description	Planning or Implementation Status	Green Infrastructure Measures Included
N/A	N/A	N/A	N/A

⁴⁸ List each public project that is going through your agency’s process for identifying projects with green infrastructure potential.
⁴⁹ Indicate status of project, such as: beginning design, under design (or X% design), projected completion date, completed final design date, etc.
⁵⁰ Enter “Yes” if project will include GI measures, “No” if GI measures are impracticable to implement, or “TBD” if this has not yet been determined.
⁵¹ Provide a summary of how each public infrastructure project with green infrastructure potential will include green infrastructure measures to the maximum extent practicable during the permit term. If review of the project indicates that implementation of green infrastructure measures is not practicable, provide the reasons why green infrastructure measures are impracticable to implement.
⁵² List each planned (and expected to be funded) public and private green infrastructure project that is not also a Regulated Project as defined in Provision C.3.b.ii. Note that funding for green infrastructure components may be anticipated but is not guaranteed to be available or sufficient.

Section 4 – Provision C.4 Industrial and Commercial Site Controls

Program Highlights and Evaluation
 Highlight/summarize activities for reporting year:

Summary:
 1) Updated Business Inspection Plan and facilities list
 2) Verified third party inspection/maintenance
 3) Participated in the Commercial/Industrial Inspection Workgroup.

Refer to the C.4. Industrial and Commercial Site Controls section of the countywide Program’s FY 17-18 Annual Report (if applicable) for a description of activities of the countywide program and/or the BASMAA Municipal Operations Committee.

C.4.b.iii ► Potential Facilities List (i.e., List of All Facilities Requiring Stormwater Inspections)

List below or attach your list of industrial and commercial facilities in your Inspection Plan to inspect that could reasonably be considered to cause or contribute to pollution of stormwater runoff.

See attachment C.4.b.iii.(1) ► Potential Facilities List

C.4.d.iii.(2)(a) & (c) ► Facility Inspections

Fill out the following table or attach a summary of the following information. Indicate your reporting methodology below.

<input checked="" type="checkbox"/>	Permittee reports multiple discrete potential and actual discharges as one enforcement action.
<input type="checkbox"/>	Permittee reports the total number of discrete potential and actual discharges on each site.

	Number
Total number of inspections conducted (C.4.d.iii.(2)(a))	20
Violations, enforcement actions, or discreet number of potential and actual discharges resolved within 10 working days or otherwise deemed resolved in a longer but still timely manner (C.4.d.iii.(2)(c))	0

Comments:
No enforcement actions required--Each enforcement action or potential/actual discharge must be resolved within 10 days.

C.4.d.iii.(2)(b) ▶ Frequency and Type of Enforcement Conducted

Fill out the following table or attach a summary of the following information.

	Enforcement Action (as listed in ERP) ⁵³	Number of Enforcement Actions Taken
Level 1	Verbal Warning/Warning Notice/Education	9
Level 2	Notice of Violation	0
Level 3	Formal Enforcement (Administrative Penalties, Cost Recovery)	0
Level 4	Legal Action and/or Referral to State and Federal Agencies	0
Total		9

C.4.d.iii.(2)(d) ▶ Frequency of Potential and Actual Non-stormwater Discharges by Business Category

Fill out the following table or attach a summary of the following information.

Business Category ⁵⁴	Number of Actual Discharges	Number of Potential Discharges
Residential		6
Landscapers/Maintenance	1	
Construction Contractors		2

C.4.d.iii.(2)(e) ▶ Non-Filers

List below or attach a list of the facilities required to have coverage under the Industrial General Permit but have not filed for coverage:

There were no industries identified as non-filers during scheduled inspections during this fiscal year.

⁵³Agencies to list specific enforcement actions as defined in their ERPs.

⁵⁴List your Program's standard business categories.

C.4.e.iii ► Staff Training Summary

Training Name	Training Dates	Topics Covered	No. of Industrial/ Commercial Site Inspectors in Attendance	Percent of Industrial/ Commercial Site Inspectors in Attendance	No. of IDDE Inspectors in Attendance	Percent of IDDE Inspectors in Attendance
Commercial/ Industrial Stormwater Inspection Training Workshop	May 3, 2018	Elements of an Effective Enforcement Program Staying Under the Radar for MRP Provisions C.4 and C.5 Industrial General Permit Inspection Process Key Components of Inspecting the Industrial Facility BNSF Railroad Maintenance Yard Mock Inspection of BNSF Railroad Maintenance Yard	0	0%	0	0%
Comments: City inspectors/staff were not available to attend the above Training Workshop.						

Section 5 – Provision C.5 Illicit Discharge Detection and Elimination

Program Highlights and Evaluation
 Highlight/summarize activities for reporting year:

Provide background information, highlights, trends, etc.

Summary:
 The City of Brentwood’s Illicit Discharge Detection and Elimination activity for the reporting year was consistent with previous years.

1. We annually clean out the trash capture devices, and inspect and clean the storm drain inlets and creek outlets.
2. We maintain a list of grease prone sewer lines that we clean out quarterly to ensure they do not cause Sanitary Sewer Overflows (SSO’s) into the stormwater system. We did not record any SSO’s in FY 2017/18.
3. We had one fish kill in FY 2017/18. Stressor Source Identification currently underway through CCCWP.
4. We participated in the CCCWP Municipal Operations Committee.

Refer to the C.5 Illicit Discharge Detection and Elimination section of countywide program’s FY 17-18 Annual Report (if applicable) for description of activities at the countywide or regional level.

C.5.c.iii ► Complaint and Spill Response Phone Number

Summary of any changes made during FY 17-18:
No Change.

C.5.d.iii.(1), (2), (3) ► Spill and Discharge Complaint Tracking

Spill and Discharge Complaint Tracking (fill out the following table or include an attachment of the following information)

	Number
Discharges reported (C.5.d.iii.(1))	9
Discharges reaching storm drains and/or receiving waters (C.5.d.iii.(2))	1
Discharges resolved in a timely manner (C.5.d.iii.(3))	9

Comments:
 We have maintained our S.O.P’s (Standard Operating Procedures) for overflows/discharges and have a step by step plan that helps eliminate any sanitary sewer overflows (SSO), chemical spills, etc. from reaching our storm water system. This plan could involve anything from sand bags around a catch basin to eliminate a small amount of discharge from entering the storm drain system to plugging a line that has a larger spill that

reached the storm drain system and eliminating it from reaching the creek. Fortunately, the vast majority of Brentwood's storm drain lines are discharged to detention basins. Due to evaporation, infiltration and the region's relatively mild rainy seasons, discharges rarely leave the detention basin. Additionally, Brentwood has over 100 various treatment systems upstream of the storm drain infrastructure which prevents potential contaminants from entering the receiving waters. These include bio-retention facilities, hydro dynamic separators, full trash capture devices and inlet filter inserts.

Section 6 – Provision C.6 Construction Site Controls

C.6.e.iii.(3)(a), (b), (c), (d) ▶ Site/Inspection Totals			
Number of active Hillside Sites (sites disturbing < 1 acre of soil requiring storm water runoff quality inspection) (C.6.e.iii.3.a)	Number of High Priority Sites (sites disturbing < 1 acre of soil requiring storm water runoff quality inspection) (C.6.e.iii. 3.c)	Number of sites disturbing ≥ 1 acre of soil (C.6.e.iii.3.b)	Total number of storm water runoff quality inspections conducted (include only Hillside Sites, High Priority Sites and sites disturbing 1 acre or more) (C.6.e.iii. 3.d)
# 0	# 0	# 10	# 83
Comments: 83 inspection logs for monthly documentation, however inspections were conducted daily which means there were many more inspections.			

C.6.e.iii.(3)(e) ▶ Construction Related Storm Water Enforcement Actions		
Guidance: Do not leave any cells blank.		
	Enforcement Action (as listed in ERP) ⁵⁵	Number Enforcement Actions Issued
Level 1 ⁵⁶	Verbal Warning/Warning Notice/Education	0
Level 2	Notice of Violation	0
Level 3	Formal Enforcement (Administrative Penalties, Cost Recovery)	0
Level 4	Legal Action and/or Referral to State and Federal Agencies	0
Total		0

⁵⁵Agencies should list the specific enforcement actions as defined in their ERPs.

⁵⁶For example, Enforcement Level 1 may be Verbal Warning.

C.6.e.iii.(3)(f), ► Illicit Discharges	
	Number
Number of illicit discharges, actual and those inferred through evidence at hillside sites, high priority sites and sites that disturb 1 acre or more of land (C.6.e.iii. 3.f)	0

C.6.e.iii.(3)(g) ► Corrective Actions	
Indicate your reporting methodology below.	
<input checked="" type="checkbox"/>	Permittee reports multiple discrete potential and actual discharges as one enforcement action.
<input type="checkbox"/>	Permittee reports the total number of discrete potential and actual discharges on each site.
	Number
Enforcement actions or discrete potential and actual discharges fully corrected within 10 business days after violations are discovered or otherwise considered corrected in a timely period (C.6.e.iii. .3.g)	0
Comments:	

C.6.e.iii.(4) ► Evaluation of Inspection Data
Describe your evaluation of the tracking data and data summaries and provide information on the evaluation results (e.g., data trends, typical BMP performance issues, comparisons to previous years, etc.).
Description: Our typical performance issues represent isolated incidents. They are dealt with quickly through relationships with owners as indicated above.

C.6.e.iii.(4) ► Evaluation of Inspection Program Effectiveness
Describe what appear to be your program’s strengths and weaknesses, and identify needed improvements, including education and outreach.
Description: The City of Brentwood construction inspectors are conducting comprehensive inspections of construction sites with up-to-date forms, evaluating the effectiveness of the BMP’s in the six categories listed in Provision C.6.c.i. The City of Brentwood’s strengths lie in our proactive approach to training, education and public outreach. Additionally, our construction inspectors are out on all active construction projects on a daily basis and are trained to be observant of all necessary stormwater BMP’s while travelling through every site. While these inspections occur daily, they are not commonly documented any more frequently than monthly, during storm events or when non-compliances occur. Improvements may include the need for additional stormwater enforcement staff who currently concentrates on general code violations. Current staffing levels have necessitated diversification of duties as dictated by management priorities.

The City of Brentwood participated in the CCCWP's Development, Municipal Operations/Trash Committees, and Stormwater Inspection Group. Refer to the C.6 Construction Site Control section of the CCCWP's FY17-18 Annual Report for a description of activities conducted at the countywide and regional level.

C.6.f.iii ► Staff Training Summary

Training Name	Training Dates	Topics Covered	No. of Inspectors in Attendance
Provision C.6 Construction Inspectors Workshop	4/17/18	<ul style="list-style-type: none"> • Principles of stormwater protection at construction sites • Refresher on the MRP C.6 requirements • Construction BMPs and resources • Inspection practices, documentation and annual reporting • Discussion to engage and share expectations with your inspection colleagues from other municipalities • Presenter: Sandy Mathews, CPESC, QSD, CGP Trainer of Record 	2

Section 7 – Provision C.7. Public Information and Outreach

C.7.b.i.1 ► Outreach Campaign

Summarize outreach campaign. Include details such as messages, creative developed, and outreach media used. The detailed outreach campaign report may be included as an attachment. If outreach campaign is being done by participation in a countywide or regional program, refer to the separate countywide or regional Annual Report.

Summary:

Refer to Section 7 in the CCCWP's FY 16/17 Annual Report for a summary of activities related to the planning and development of an Outreach Campaign.

C.7.c. Stormwater Pollution Prevention Education

No Change.

C.7.d ► Public Outreach and Citizen Involvement Events

Describe general approach to event selection. Provide a list of outreach materials and giveaways distributed.
 Use the following table for reporting and evaluating public outreach events
 CCCWP staff provided a table titled "FY 2016/17 Public Information/Participation Program/BASMAA Events and Activities", which includes Public Outreach and Citizen Involvement Events conducted countywide and/or regionally on behalf of all Permittees. Refer to the CCCWP's FY 17-18 Annual Report, Section 7 Public Information and Outreach for a full description of the events and activities and an evaluation of their effectiveness.

Event Details	Description (messages, audience)	Evaluation of Effectiveness
<p>Annual City of Brentwood Public Works Open House. May 21, 2018. Primary participants include BUSD 3rd grade classes as well as the general public</p>	<p>Open house for public and 3rd graders. Stormwater Booth with Demonstration of County Watershed Model including student involvement in creating and mock pollution. Discussions on what is and is not allowed to go down the storm drain. Completion of a multiple choice quiz. CWP embossed pencils and rulers were handed out.</p>	<p>Total number reached 950 including students and teachers, chaperones and public.</p>
<p>Marsh Creek Clean-Up Day. September 16, 2017</p>	<p>Joint participation with The Friends of Marsh Creek and City Staff to pick up trash along Marsh Creek. Staff also provided dumpsters and hauled away trash.</p>	<p>Local community residents and groups participated. A total of 2.25 tons of trash/recyclables removed along 20 miles of creek bed. Approximately 275 volunteers</p>
<p>Trash Hot Spot Clean Ups, September 8, 2017 and October 27, 2017</p>	<p>A local high school assisted City staff to pick up, characterize and assess trash at three Hot Spots along Marsh Creek. The City secured the County Flood Control permit and indemnification/Insurance details, valid for 2 years.</p>	<p>2 City engineers and 6 student/teacher volunteers from Independence High School participated. Assessment of the City's Hot Spots helps to monitor the effectiveness of trash reduction control measures. 6.38 CY of trash was removed.</p>

C.7.e. ► Watershed Stewardship Collaborative Efforts

Summarize watershed stewardship collaborative efforts and/or refer to a regional report that provides details. Describe the level of effort and support given (e.g., funding only, active participation etc.). State efforts undertaken and the results of these efforts. If this activity is done regionally refer to a regional report.

Evaluate effectiveness by describing the following:

- Efforts undertaken
- Major accomplishments

Summary:

Countywide program staff will provide a summary of efforts conducted at the countywide or regional level.

C.7.f. ► School-Age Children Outreach

Summarize school-age children outreach programs implemented. A detailed report may be included as an attachment.

Use the following table for reporting school-age children outreach efforts.

Refer to the C.7 Section of the countywide program’s FY 17-18 Annual Report (if applicable) for a description of School-age Children Outreach efforts conducted at the countywide level.

Program Details	Focus & Short Description	Number of Students/Teachers reached	Evaluation of Effectiveness
Annual City of Brentwood Public Works Open House. May 21, 2018. Primary participants include BUSD 3rd grade classes as well as the general public	Open house for public and 3rd graders from Brentwood Union School District. Stormwater Booth with Demonstration of County Watershed Model including student involvement in creating and identifying sources and destination of mock pollution. Discussions on what is and is not allowed to go down the storm drain. Completion of a multiple choice quiz. Clean Water Program embossed pencils and rulers were handed out. Other activities included: Equipment demonstrations,	Total number reached 950 including students and teachers, chaperones and public.	A questionnaire was provided to each student and the answers were available from the information provided at each booth. Informational giveaways such as pencils, stickers, refrigerator magnet clips, reusable grocery bags and small toys were provided to students at most booths

	informational booths. Educational scavenger hunt. Backhoe competition event. Ecological Entertainment – recycling, water conservation and wastewater education. GIS – locate your street interactive game. Equipment displays. Water source to tap demonstration. Water Conservation & water meter reading. Camera Truck/Jetting demonstration. Water quality Laboratory demonstrations. Refuse truck with recycling information. Fleet shop w/refuse truck on portable jack display. Walk through a work zone interactive traffic safety.		
Environmental assemblies for 5th grade classes in Brentwood Union School District	45 minute assembly focusing on: <ul style="list-style-type: none"> • Reducing waste by buying and using less • How to properly recycle at home and school • What natural resources are and how we can protect them • How to conserve, protect, and respect water • How water gets from the source to Brentwood home and schools • Basic principles of Ecology and the interconnectedness of life on Earth Wastewater – what not to put down the drain	Total number reached approximately 1000 students and teachers.	Teachers and school administrative staff have stated how they and the students now have a better understanding of recycling, water conservation, and what can go down the drain. The School Recycling program continues to be productive with a recycling load contamination rate of less than 1%. Keeping 127.10 tons of recyclable materials from the land fill and potential pollution.

<p>Science Day - 8th grade classes in Brentwood Union School District.</p>	<p>One class period for all 8th graders on "How they affect the Environment" based on Recycling, Water Conservation & what can go into the wastewater system. Including lab on simulated wastewater – temperature, turbidity, pH and dissolved oxygen.</p>	<p>Approximately 1100 students.</p>	<p>Program feedback – Received during the day of the event. Brought a relevant understanding on how each individual can affect their community through everyday actions.</p>
--	--	-------------------------------------	--

Section 9 – Provision C.9 Pesticides Toxicity Controls

C.9.a. ► Implement IPM Policy or Ordinance

Is your municipality implementing its IPM Policy/Ordinance and Standard Operating Procedures?	<input checked="" type="checkbox"/>	Yes	<input type="checkbox"/>	No
---	-------------------------------------	-----	--------------------------	----

If no, explain:

Report implementation of IPM BMPs by showing trends in quantities and types of pesticides used, and suggest reasons for increases in use of pesticides that threaten water quality, specifically organophosphates, pyrethroids, carbamates fipronil, indoxacarb, diuron, and diamides. A separate report can be attached as evidence of your implementation.

Trends in Quantities and Types of Pesticide Active Ingredients Used⁵⁷

Pesticide Category and Specific Pesticide Active Ingredient Used	Amount ⁵⁸					
	FY 15-16	FY 16-17	FY 17-18	FY 18-19	FY 19-20	FY 20-21
Organophosphates	0	0	0			
Active Ingredient Chlorpyrifos						
Active Ingredient Diazinon						
Active Ingredient Malathion						
Pyrethroids (see footnote #57 for list of active ingredients)	00	0	0			
Active Ingredient Type X						
Active Ingredient Type Y						
Carbamates	0	0	0			
Active Ingredient Carbaryl						
Active Ingredient Aldicarb						
Fipronil						
Indoxacarb	Reporting not required	0	0			

⁵⁷Includes all municipal structural and landscape pesticide usage by employees and contractors.

⁵⁸Weight or volume of the active ingredient, using same units for the product each year. Please specify units used. The active ingredients in any pesticide are listed on the label. The list of active ingredients that need to be reported in the pyrethroids class includes: metofluthrin, bifenthrin, cyfluthrin, beta-cyfluthrin, cypermethrin, deltamethrin, esfenvalerate, lambdacyhalothrin, and permethrin.

	in FY 15-16					
Diuron	Reporting not required in FY 15-16	0	0			
Diamides	Reporting not required in FY 15-16	0	0			
Active Ingredient Chlorantraniliprole		0	0			
Active Ingredient Cyantraniliprole		0	0			
<p>IPM Tactics and Strategies Used:</p> <p>Educated staff and building occupants on their roles in pest management (maintaining good sanitation by not eating at their desks, putting food stored at work in ant- and rodent-proof containers, putting food waste into central garbage can, wiping up spills). City of Brentwood Standards call for preventative actions such as sealing holes and gaps in structures, improving sanitation, cutting back tree branches and bushes that are touching buildings and providing pathways for rodent and ants to access the structure.</p>						

C.9.b ► Train Municipal Employees	
Enter the number of employees that applied or used pesticides (including herbicides) within the scope of their duties this reporting year.	19
Enter the number of these employees who received training on your IPM policy and IPM standard operating procedures within this reporting year.	19
Enter the percentage of municipal employees who apply pesticides who have received training in the IPM policy and IPM standard operating procedures within this reporting year.	100
<p>Type of Training: In house trainer conducts the annual training. Training meets county requirements and City IPM.</p>	

C.9.c ▶ Require Contractors to Implement IPM				
Did your municipality contract with any pesticide service provider in the reporting year, for either landscaping or structural pest control?	<input checked="" type="checkbox"/>	Yes	<input type="checkbox"/>	No
If yes, did your municipality evaluate the contractor’s list of pesticides and amounts of active ingredients used?	<input checked="" type="checkbox"/>	Yes	<input type="checkbox"/>	No,
<p>If your municipality contracted with any pesticide service provider, briefly describe how contractor compliance with IPM Policy/Ordinance and SOPs was monitored</p> <p>The Landscape Maintenance RFP requires all of our contractors to provide us with their respective company’s IPM Program. These typically mirror our own IPM program since the contractors use much of the information that is in our IPM. For instance:</p> <ul style="list-style-type: none"> -Submit Monthly Use Reports to Contra Costa County of all pesticides and amounts used. -Provide annual training for all applicators. On-going training throughout the year is also provided. -Maintain proper licensing, permits and all requirements of State and local agencies -Use “Best Management Practices” (BPM’s) to keep chemical and herbicide use to the minimum required to do the job. -Follow all safety and application procedures provided by the Department of Pesticide Regulations (DPR). Reducing the risk of harm to applicators, citizens and the environment. <p>The City keeps copies of the IPM Programs at all times and will review them with the respective contractors as needed. Parks Supervisors meet with the contractors on a weekly basis to review work orders and the scheduling of operational tasks. If the schedule calls out any herbicide or pesticide applications, then both parties will review what is the target and what is the application. In addition, the Landscape Maintenance contracts are Outcome Based Contracts and the Parks Supervisors have the ability to write Out of Compliance Notices to any contractor that is found not following City Standards, and with multiple offenses, can eventually lead to monetary penalties. Also, the Parks and Recreation Department is responsible for publishing an Annual Report that includes a section on herbicide/pesticide annual use by all Parks contractors.</p>				

C.9.d ▶ Interface with County Agricultural Commissioners				
Did your municipality communicate with the County Agricultural Commissioner to: (a) get input and assistance on urban pest management practices and use of pesticides or (b) inform them of water quality issues related to pesticides,	<input type="checkbox"/>	Yes	<input checked="" type="checkbox"/>	No

If yes, summarize the communication. If no, explain.
Refer to the CCCWP's FY 16-17 Annual Report, Section C.9 Pesticide Toxicity Controls for a summary of the CCCWP's communication with Contra Costa County Agricultural Commissioner.

Did your municipality report any observed or citizen-reported violations of pesticide regulations (e.g., illegal handling and applications of pesticides) associated with stormwater management, particularly the California Department of Pesticide Regulation (DPR) surface water protection regulations for outdoor, nonagricultural use of pyrethroid pesticides by any person performing pest control for hire.	<input type="checkbox"/>	Yes	<input checked="" type="checkbox"/>	No
--	--------------------------	-----	-------------------------------------	----

If yes, provide a summary of improper pesticide usage reported to the County Agricultural Commissioner and follow-up actions taken to correct any violations. A separate report can be attached as your summary.

C.9.e.ii (1) ► Public Outreach: Point of Purchase

Provide a summary of public outreach at point of purchase, and any measurable awareness and behavior changes resulting from outreach (here or in a separate report); **OR** reference a report of a regional effort for public outreach in which your agency participates.

Summary:
See the C.9 Pesticides Toxicity Control section of Countywide Program's FY 17-18 Annual Report for information on point of purchase public outreach conducted countywide and regionally.

C.9.e.ii (2) ► Public Outreach: Pest Control Contracting Outreach

Provide a summary of outreach to residents who use or contract for structural pest control and landscape professionals); **AND/OR** reference a report of a regional effort for outreach to residents who hire pest control and landscape professionals in which your agency participates.

Summary:
See the C.9 Pesticides Toxicity Control section of Countywide Program's FY 17-18 Annual Report for information on point of purchase public outreach conducted countywide and regionally.

C.9.e.ii.(3) ► Public Outreach: Pest Control Operators

Provide a summary of public outreach to pest control operators and landscapers and reduced pesticide use (here or in a separate report); **AND/OR** reference a report of a regional effort for outreach to pest control operators and landscapers in which your agency participates.

Summary:
See the C.9 Pesticides Toxicity Control section of Program's FY 17-18 Annual Report for a summary of our participation in and contributions towards

countywide and regional public outreach to pest control operators and landscapers to reduce pesticide use.

C.9.f ▶ Track and Participate in Relevant Regulatory Processes

Summarize participation efforts, information submitted, and how regulatory actions were affected; **AND/OR** reference a regional report that summarizes regional participation efforts, information submitted, and how regulatory actions were affected.

Summary:

During FY 17-18, we participated in regulatory processes related to pesticides through contributions to the countywide Program, BASMAA and CASQA. For additional information, see the Regional Report submitted by BASMAA on behalf of all MRP Permittees.

Section 10 - Provision C.10 Trash Load Reduction

C.10.a.i ► Trash Load Reduction Summary

For population-based Permittees, provide the overall trash reduction percentage achieved to-date within the jurisdictional area of your municipality that generates problematic trash levels (i.e., Very High, High or Moderate trash generation). Base the reduction percentage on the information presented in C.10.b i-iv and C.10.e.i-ii. Provide a discussion of the calculation used to produce the reduction percentage

Trash Load Reductions	
Percent Trash Reduction in All Trash Management Areas (TMAs) due to Trash Full Capture Systems (as reported C.10.b.i)	0.1%
Percent Trash Reduction in all TMAs due to Control Measures Other than Trash Full Capture Systems (as reported in C.10.b.ii) ⁵⁹	83.2%
Percent Trash Reduction due to Jurisdictional-wide Source Control Actions (as reported in C.10.b.iv) ¹	0%
SubTotal for Above Actions	83.3%
Trash Offsets (Optional)	
Offset Associated with Additional Creek and Shoreline Cleanups (as reported in C.10.e.i)	0%
Offset Associated with Direct Trash Discharges (as reported in C.10.e.ii)	0%
Total (Jurisdictional-wide) % Trash Load Reduction through FY 2017-18	83.3%

Discussion of Trash Load Reduction Calculation: The City of Brentwood is using full capture systems to achieve full compliance. The City has been using the Collector App tool for visual assessments in the TMAs. To achieve further trash load reductions, the City may consider updating the City's Ordinance to capture the private drainage areas.

Trash Full Capture Map attached (Attachment 10-1).

⁵⁹ See Appendix 10-1 for changes between 2009 and FY 17-18 in trash generation by TMA as a result of Full Capture Systems and Other Measures.

C.10.a.ii.b ▶ Trash Generation Area Management - Identification of Private Drainages >10,000 ft²

State (Y/N) if your agency completed Permit Provision C.10.a.ii.b. If Yes, attach a map (or other record) or provide a website link to a map (or other record) of the location of lands >10,000 ft² (in Very High, High, and Moderate trash generation areas) that are plumbed directly to the Permittee’s storm drain systems, including trash control status of these areas. If No, provide explanation of why the provision was not completed and the estimated date when the provision will be completed.

Did your agency complete Permit Provision C.10.a.ii.b?		Yes	X	No		NA
---	--	-----	---	----	--	----

If No, provide explanation and estimated completion date:

Per the agreement between the Water Board and East County Permittees, East County Permittees will have until **December 31, 2020** to meet the requirement of mapping private lands greater than 10,000 sf. This timeline coincides with the proposed schedule for amending the reissued MRP to include East County Permittees.

A Potential PLDA map is attached (Attachment 10-2).

Description of the process used to identify applicable areas and their trash control status:

To satisfy this requirement, an initial screening was conducted to identify applicable lands using Contra Costa Clean Water Program's ArcGIS on line application. As part of the screening process, lands under full trash capture, non-jurisdictional, or classified as low-trash generating were excluded. Single family homes were also excluded since they did not meet the required criteria. Remaining contiguous lands that were greater than 10,000 square feet were identified as potential Private Lands Drainage Areas (PLDAs).

Process still to be performed: Desktop analyses of the potential PLDAs were then conducted. Potential PLDAs were excluded if, through the desktop analyses, these lands were identified as having less than 10,000 square feet of applicable area once building footprints were deducted or no private storm drain inlets are on site. Potential PLDAs were also excluded based on certain other factors such as the identified lands are open space or, in very few particular cases, the lands have a low trash generation rate as based on results of recent assessments. Once the desktop analyses was completed, preliminary PLDAs were created from all remaining potential PLDAs. In rare circumstances, preliminary PLDAs were also created from areas that the initial screening had failed to identify.

It is anticipated that preliminary PLDAs will be visually assessed to confirm or correct trash generation rates and the location of private storm drain inlets will be mapped. All preliminary PLDAs that still satisfy the criteria once the field analyses are completed will be designated as PLDAs. Appropriate follow up action will be taken such as outreach to applicable property owners and status will be tracked.

C.10.a.iii ► Mandatory Trash Full Capture Systems

Provide the following:

- 1) Total number and types of full capture systems (publicly and privately-owned) installed prior to FY 17-18, during FY 17-18, and to-date, including inlet-based and large flow-through or end-of-pipe systems, and qualifying low impact development (LID) required by permit provision C.3.
- 2) Total land area (acres) treated by full capture systems for population-based Permittees and total number of systems for non-population based Permittees compared to the total required by the permit.

Type of System	# of Systems	Areas Treated (Acres)
Installed Prior to FY 17-18		
Connector Pipe Screens	2	0
Baskets	0	1
Netting Devices	0	0
HDS Units	82	950
GSRDs	1	250
LID Facilities	0	0
Other	6	0
Installed in FY 17-18		
N/A	0	0
Total for all Systems Installed To-date		1200
Treatment Acreage Required by Permit (Population-based Permittees)		64
Total # of Systems Required by Permit (Non-population-based Permittees)		

C.10.b.i ► Trash Reduction - Full Capture Systems

Provide the following:

- 1) Jurisdictional-wide trash reduction in FY 17-18 attributable to trash full capture systems implemented in each TMA;
- 2) The total number of full capture systems installed to-date in your jurisdiction;
- 3) The percentage of systems in FY 17-18 that exhibited significant plugged/blinded screens or were >50% full when inspected or maintained;
- 4) A narrative summary of any maintenance issues and the corrective actions taken to avoid future full capture system performance issues; and
- 5) A certification that each full capture system is operated and maintained to meet the full capture system requirements in the permit.

TMA	Jurisdiction-wide Reduction (%)	Total # of Full Capture Systems	% of Systems Exhibiting Plugged/Blinded Screens or >50% full in FY 17-18	Summary of Maintenance Issues and Corrective Actions
1	0.0	91	0	The Gross Solids Removal Device (GSRD) StormFlo Screen (72" Interceptor) tends to collect an excessive amount of leaves which clog the screens. City Operations staff inspects/cleans out this device 2-3 times per year to minimize flows from bypassing the weir.
2	0.0			
3	0.1			
4	0.0			
5	0.0			
6	NA			
7	NA			
Total	0.1			

Certification Statement: The City of Brentwood certifies that a full capture system maintenance and operation program is currently being implemented to maintain all applicable systems in manner that meets the full capture system requirements included in the Permit.

C.10.b.ii ► Trash Reduction – Other Trash Management Actions (PART A)

Provide a summary of trash control actions other than full capture systems or jurisdictional source controls that were implemented within each TMA, including the types of actions, levels and areal extent of implementation, and whether actions are new, including initiation date.

TMA	Summary of Trash Control Actions Other than Full Capture Systems
1	<ul style="list-style-type: none"> • Enhanced street sweeping enabled by jurisdictional land transfer of Brentwood Blvd. from the State to the City of Brentwood. • Anti-littering and Illegal Dumping Enforcement. • Public Education and Outreach Programs Targeted at Trash Reduction and Implemented post-MRP Adoption • Construction North Brentwood Blvd Beautification project with a landscape median and lane widening. Maintenance of this landscaping will ensure frequent trash pick-up. • Completion of new City owner and operated solid waste transfer station. This fully enclosed facility allows trash to be dropped to waiting transfer trucks staged on the bottom level. The pre-existing outdoor facility was exposed to wind and water elements with a high susceptibility to carry trash off-site.
2	<ul style="list-style-type: none"> • Enhanced street sweeping enabled by jurisdictional land transfer of Brentwood Blvd. from the State to the City of Brentwood. • Anti-littering and Illegal Dumping Enforcement
3	<ul style="list-style-type: none"> • Enhanced street sweeping enabled by jurisdictional land transfer of Brentwood Blvd. from the State to the City of Brentwood. • Anti-littering and Illegal Dumping Enforcement
4	<ul style="list-style-type: none"> • Enhanced street sweeping enabled by jurisdictional land transfer of Brentwood Blvd. from the State to the City of Brentwood. • Anti-littering and Illegal Dumping Enforcement • Inspection and outreach with property owners in TMA
5	<ul style="list-style-type: none"> • Elimination of High School from TMA as non-jurisdictional
6	<ul style="list-style-type: none"> • Hot spots are under county jurisdiction and receive trash from medium, high and non-jurisdictional public school trash generating areas • Trash regularly picked up in creek and banks through Friends of Marsh Creek Watershed volunteer activities
7	<ul style="list-style-type: none"> • This is a 100% Low trash generation TMA. • Full LID mandated with all new construction • The City of Brentwood stopped permitting storm water and sanitary sewer drains in trash enclosures, trash compactor areas and loading docks to eliminate trash and contaminated liquid residue discharges from items such as fluorescent light tubes, batteries, medicine, transformers, etc. Drainage from these areas is now conducted to either a bio-retention area or a grease interceptor.

Summary of Trash Control Measures Other than Full Capture Devices:

- **Street Sweeping:** Include a description of any enhancements or new actions implemented after the MRP 1.0 effective date (i.e., December 2009). Identify portions of the TMA where enhanced street sweeping (i.e., increased sweeping frequency) and parking enforcement above 2009 levels was implemented.

- **On-land Cleanup:** Include a description of on-land cleanup activities that began after the MRP 1.0 effective date (i.e., December 2009) and continued into FY 17-18, including any enhancements or new actions implemented in FY 17-18. Describe if these actions are Permittee or volunteer-led.
- **Partial Capture Devices:** Provide a description of devices installed after the MRP 1.0 effective date (i.e., December 2009). Describe the level of maintenance conducted per device types.
- **Storm Drain Inlet Cleaning:** Describe storm drain inlet maintenance activities implemented after the MRP 1.0 effective date (i.e., December 2009) and continued in FY 17-18, including any enhancements or new maintenance activities implemented in FY 17-18. For new/enhanced actions, include the number of inlets where enhanced maintenance occurred, and the increased frequency of maintenance.
- **Uncovered Loads:** Describe activities designed to reduce trash from uncovered loads that began after the MRP 1.0 effective date (i.e., December 2009) and continued in FY 17-18, including any enhancements or new actions implemented in FY 17-18. Describe the types of actions implemented including new or redirected enforcement efforts to increase the focus towards new or enhanced actions.
- **Anti-littering and illegal dumping enforcement activities:** Describe anti-littering and illegal dumping enforcement activities began after to the MRP 1.0 effective date (i.e., December 2009) and continued in FY 17-18, and any enhancements or new actions implemented in FY 17-18. Include any new or redirected enforcement efforts to increase the focus towards new or enhanced actions. Describe the number of citations or other correction actions accomplished this year, and compare with previous years. Indicate how anti-littering and illegal dumping enforcement records are kept, and how they may be retrieved for audit.
- **Improved Trash Bin/Container Management:** Describe activities designed to improve trash bin/container management that began after the MRP1.0 effective date (i.e., December 2009) and continued in FY 17-18, and any enhancements or new actions implemented in FY 17-18. Include any new or redirected efforts to increase the focus towards these new or enhanced actions.
- **Other Types of Actions:** Describe activities designed after the MRP effective date (i.e., December 2009) and continued in FY 17-18, and any enhancements or new (post December 2009 effective date) actions implemented in FY 17-18.

C.10.b.ii ► Trash Reduction – Other Trash Management Actions (PART B)

Provide the following:

- 1) A summary of the on-land visual assessments in each TMA (or control measure area), including the street miles or acres available for assessment (i.e., those associated with VH, H, or M trash generation areas not treated by full capture systems), the street miles or acres assessed, the % of available street miles or acres assessed, and the average number of assessments conducted per site within the TMA; and
- 2) Percent jurisdictional-wide trash reduction in FY 17-18 attributable to trash management actions other than full capture systems implemented in each TMA; OR
- 3) Indicate that no on-land visual assessments were performed.

If no on-land visual assessments were performed, check here and state why:

Explanation:

TMA ID <i>or (as applicable)</i> Control Measure Area	Total Street Miles ⁶⁰ or Acres Available for Assessment	Summary of On-land Visual Assessments			Jurisdictional-wide Reduction (%)
		Street Miles or Acres Assessed	% of Available Street Miles or Acres Assessed	Avg. # of Assessments Conducted at Each Site	
1	0.22	0.05	21.62	2	30.9
2	1.54	0.33	21.53	2	16.4
3	3.07	0.57	18.52	2	35.8
4	0.01	0.00	0.00	0	0.0
5	0.12	0.05	38.64	2	0.1
6*	0.00	NA	NA	NA	0.0
7*	0.00	NA	NA	NA	0.0
Total		1.0	20.0	8	83.2

* TMAs are entirely comprised of low trash generating area, under full trash capture, or non-jurisdictional; and assessments are not required.

⁶⁰ Linear feet are defined as the street length and do not include street median curbs.

C.10.b.iv ► Trash Reduction – Source Controls

Provide a description of each jurisdictional-wide trash source control action implemented to-date. For each control action, identify the trash reduction evaluation method(s) used to demonstrate on-going reductions, summarize the results of the evaluation(s), and estimate the associated reduction of trash within your jurisdictional area. Note: There is a maximum of 10% total credit for source controls.

Source Control Action	Summary Description & Dominant Trash Sources and Types Targeted	Evaluation/Enforcement Method(s)	Summary of Evaluation/Enforcement Results To-date	% Reduction
N/A	N/A	N/A	N/A	N/A

C.10.b.v ► Trash Reduction – Receiving Water Monitoring

Report on the progress of developing and testing your agency's trash receiving water monitoring program.

Please refer to the Countywide Program's FY 17-18 Annual Report for the Progress Report on the Receiving Water Trash Monitoring Program Plan.

C.10.c ► Trash Hot Spot Cleanups

Provide the FY 17-18 cleanup date and volume of trash removed during each MRP-required Trash Hot Spot cleanup during each fiscal year listed. Indicate whether the site was a new site in FY 17-18.

Trash Hot Spot	New Site in FY 17-18 (Y/N)	FY 17-18 Cleanup Date(s)	Volume of Trash Removed (cubic yards)				
			FY 2013-14	FY 2014-15	FY 2015-16	FY 2016-17	FY 2017-18
1	N	9/8/2017	3.70	3.33	2.67	6.0	0.78
2	N	9/8/2017	2.26	0.76	1.19	1.0	1.0
3	N	10/27/2017	NA	NA	NA	6.4	4.6

C.10.d ► Long-Term Trash Load Reduction Plan

Provide descriptions of significant revisions made to your Long-term Trash Load Reduction Plan submitted to the Water Board in February 2014. Describe significant changes made to primary or secondary trash management areas (TMA), baseline trash generation maps, control measures, or time schedules identified in your plan. Indicate whether your baseline trash generation map was revised and if so what information was collected to support the revision. If your baseline trash generation map was revised, attach it to your Annual Report.

Description of Significant Revision	Associated TMA
Public schools have been reclassified as a non-jurisdictional land use. A revised Baseline Trash Generation Rate map was submitted and is attached to the annual report to show this reclassification.	5

C.10.e. ► Trash Reduction Offsets (Optional)

Provide a summary description of each offset program implemented, the volume of trash removed, and the offset claimed in FY 17-18. Also, for additional creek and shoreline cleanups, describe the number and frequency of cleanups conducted, and the locations and cleanup dates. For direct discharge control programs approved by the Water Board Executive Officer, also describe the results of the assessments conducted in receiving waters to demonstrate the effectiveness of the control program. Include an Appendix that provides the calculations and data used to determine the trash reduction offset.

Offset Program	Summary Description of Actions and Assessment Results	Volume of Trash (CY) Removed/Controlled in FY 17-18	Offset (% Jurisdiction-wide Reduction)
Additional Creek and Shoreline Cleanups (Max 10% Offset)	NA	NA	NA
Direct Trash Discharge Controls (Max 15% Offset)	NA	NA	NA

Appendix 10-1. Baseline trash generation and areas addressed by full capture systems and other control measures in Fiscal Year 17-18.

TMA	2009 Baseline Trash Generation (Acres)					Trash Generation (Acres) in FY 17-18 After Accounting for Full Capture Systems					Jurisdiction-wide Reduction via Full Capture Systems (%)	Trash Generation (Acres) in FY 17-18 After Accounting for Full Capture Systems <u>and</u> Other Control Measures					Jurisdiction-wide Reduction via Other Control Measures (%)	Jurisdiction-wide Reduction via Full Capture <u>AND</u> Other Control Measures (%)
	L	M	H	VH	Total	L	M	H	VH	Total		L	M	H	VH	Total		
1	96	36	9	0	142	96	36	9	0	142	0.0	142	0	0	0	142	30.9	30.9
2	0	38	0	0	38	0	38	0	0	38	0.0	38	0	0	0	38	16.4	16.4
3	12	85	9	0	106	12	85	9	0	106	0.1	81	21	4	0	106	35.8	35.8
4	0	2	0	0	2	0	2	0	0	2	0.0	0	2	0	0	2	0.0	0.0
5	0	1	0	0	1	0	1	0	0	1	0.0	0	0	0	0	1	0.1	0.1
6	3	0	0	0	3	3	0	0	0	3	NA	3	0	0	0	3	NA	NA
7	8861	0	0	0	8861	8861	0	0	0	8861	NA	8861	0	0	0	8861	NA	NA
Totals	8972	163	18	0	9153	8972	163	18	0	9153	0.1	9125	24	4	0	9153	83.2	83.2

Note: "NA" indicates that the TMA has no moderate, high or very high trash generating areas (i.e., all low trash generation and/or non-jurisdictional) and therefore no additional trash control measures are needed.

Section 11 - Provision C.11 Mercury Controls

C.11.a ► Implement Control Measures to Achieve Mercury Load Reductions

C.11.b ► Assess Mercury Load Reductions from Stormwater

See the Countywide Program's FY 2017-18 Annual Report for updated information on:

- Documentation of mercury control measures implemented in our agency's jurisdictional area for which load reductions will be reported and the associated management areas;
- A description of how the BASMAA Interim Accounting Methodology⁶¹ was used to calculate the mercury load reduced by each control measure implemented in our agency's jurisdictional area and the calculation results (i.e., the estimated mercury load reduced by each control measure);
- Supporting data and information necessary to substantiate the load reduction estimates; and
- For Executive Officer approval, any refinements, if necessary, to the measurement and estimation methodologies to assess mercury load reductions in the subsequent permit.

C.11.c ► Plan and Implement Green Infrastructure to Reduce Mercury Loads

See the Countywide Program's FY 2017-18 Annual Report for information on the quantitative relationship between green infrastructure implementation and mercury load reductions, including all data used and a full description of models and model inputs relied on to establish this relationship.

C.11.e ► Implement a Risk Reduction Program

A summary of Program and regional accomplishments for this sub-provision are included in the Countywide Program's FY 2017-18 Annual Report.

⁶¹BASMAA 2017. Interim Accounting Methodology for TMDL Loads Reduced, Version 1.0. Prepared for BASMAA by Geosyntec Consultants and EOA, Inc., September 19, 2016.

Section 12 - Provision C.12 PCBs Controls

C.12.a ► Implement Control Measures to Achieve PCBs Load Reductions

C.12.b ► Assess PCBs Load Reductions from Stormwater

See the Countywide Program's FY 2017-18 Annual Report for:

- Documentation of PCBs control measures implemented in our agency's jurisdictional area for which load reductions will be reported and the associated management areas;
- A description of how the BASMAA Interim Accounting Methodology⁶² was used to calculate the PCBs load reduced by each control measure implemented in our agency's jurisdictional area and the calculation results (i.e., the estimated PCBs load reduced by each control measure);
- Supporting data and information necessary to substantiate the load reduction estimates; and
- For Executive Officer approval, any refinements, if necessary, to the measurement and estimation methodologies to assess PCBs load reductions in the subsequent permit.

C.12.c ► Plan and Implement Green Infrastructure to Reduce PCBs Loads

See the Countywide Program's FY 2017-18 Annual Report for information on the quantitative relationship between green infrastructure implementation and PCBs load reductions, including all data used and a full description of models and model inputs relied on to establish this relationship.

C.12.e ► Evaluate PCBs Presence in Caulks/Sealants Used in Storm Drain or Roadway Infrastructure in Public Rights-of-Way

A summary of Countywide Program and regional accomplishments for this sub-provision is included in the Countywide Program's FY 2017-18 Annual Report.

⁶²BASMAA 2017. Interim Accounting Methodology for TMDL Loads Reduced, Version 1.0. Prepared for BASMAA by Geosyntec Consultants and EOA, Inc., September 19, 2016.

C.12.f ► Manage PCB-Containing Materials and Wastes During Building Demolition Activities So That PCBs Do Not Enter Municipal Storm Drains

A summary of Countywide Program and regional accomplishments for this sub-provision is included in the C.12 PCBs Controls section of Countywide Program's FY 2017-18 Annual Report.

Does your agency plan to seek exemption from this requirement? Yes No

N/A

C.12.g ► Fate and Transport Study of PCBs: Urban Runoff Impact on San Francisco Bay Margins

A summary of Countywide Program and regional accomplishments for this sub-provision are included in the Countywide Program's FY 2017-18 Annual Report.

C.12.h ► Implement a Risk Reduction Program

A summary of Countywide Program and regional accomplishments for this sub-provision are included in the Countywide Program's FY 2017-18 Annual Report.

Section 13 - Provision C.13 Copper Controls

C.13.a.iii.(3) ► Manage Waste Generated from Cleaning and Treating of Copper Architectural Features

Provide summaries of permitting and enforcement activities to manage waste generated from cleaning and treating of copper architectural features, including copper roofs, during construction and post-construction.

Summary:

N/A

C.13.b.iii.(3) ► Manage Discharges from Pools, Spas, and Fountains that Contain Copper-Based Chemicals

Provide summaries of any enforcement activities related to copper-containing discharges from pools, spas, and fountains.

Summary:

No specific enforcement activities were conducted during the current reporting period.

C.13.c.iii ► Industrial Sources Copper Reduction Results

Based upon inspection activities conducted under Provision C.4, highlight copper reduction results achieved among the facilities identified as potential users or sources of copper, facilities inspected, and BMPs addressed.

Summary:

N/A

Section 15 -Provision C.15 Exempted and Conditionally Exempted Discharges

C.15.b.vi.(2) ► Irrigation Water, Landscape Irrigation, and Lawn or Garden Watering

Provide implementation summaries of the required BMPs to promote measures that minimize runoff and pollutant loading from excess irrigation. Generally the categories are:

- Promote conservation programs
- Promote outreach for less toxic pest control and landscape management
- Promote use of drought tolerant and native vegetation
- Promote outreach messages to encourage appropriate watering/irrigation practices
- Implement Illicit Discharge Enforcement Response Plan for ongoing, large volume landscape irrigation runoff.

Summary:

An Ordinance was adopted at the June 28, 2016, City Council meeting which repeals the 35 percent potable water use reduction and continues to prohibit the following activities in the promotion of water conservation:

- No watering between 8:00 a.m. and 7:00 p.m.
- No watering within 48 hours after measurable rainfall
- No excessive landscape runoff
- No washing a vehicle, trailer, boat without a shutoff nozzle.
- No washing paved or hardscape surfaces
- No water use for non-recirculating fountains
- No watering new home construction landscape except by drip or micro spray
- No watering ornamental turf on public street medians
- No serving drinking water except upon request in eating or drinking establishments
- No hotels/motels daily laundering of towels/linens unless requested by a guest

Promote Water Conservation Programs by offering:

- Distributed low flow shower heads, moisture meters, faucet aerators, and hose nozzles.
- Quarterly High Use Notification Letters or Emails – Since 2006
- Water Use Surveys – Since 2006
- New Home Owner Information – Since 2010
- Weather Based Irrigation Controller Study (includes controller given to approved resident) – completed 2006
- (4/2012). One is our Water Conservation Specialist and the other is our Park/Maintenance Supervisor. Both positions promote BMPs and IPM during their interaction with home owners, businesses and with the City's Landscape Contractors.

Promote use of drought tolerant and native vegetation by:

- Offering Water Wise Gardening on the City's website

- During Water Use Surveys
- Planting in our City owned/maintained landscape

Promote outreach messages to encourage appropriate watering/irrigation practices by:

- The City includes messages on billing statements promoting water conservation (12 messages per year)
- Newsletter to City Customers – Brentwood Connection – providing information on watering schedule and conservation tips (3 time per year)
- Website updated to include and target water conservation
- Auto Dialer Call Notifications - notifying customers of changes to water use restrictions
- Notification – Emailed news letter
- Water Conservation brochure – updated annually
- Maintaining a 30% reduction over 2013 use.

Implement Illicit Discharge Enforcement Response Plan for ongoing large volume landscape irrigation runoff by:

- The City adopted the Model Water Efficient Landscape Ordinance (MWELo) in 2010 provided by the Department of Water Resources
- The City meets MWELo by adopting the water efficient landscape ordinance
- The ordinance requires new construction and rehabilitation projects to:
 - Provide a Landscape Documentation Package (certification of installation; irrigation scheduling; schedule of landscape and irrigation maintenance; landscape irrigation audit report; and soil management report.
 - Require use of maximum applied water allowance, Water Use Classification of Plants (WUCOLS), and an audit performed by a certified irrigation auditor.
 - Require the use of recycled water for irrigation systems and decorative water features unless a written exemption is granted by the local water purveyor.
 - Recommend storm water management practices and increase rainwater capture and create opportunities for infiltration and/or onsite storage of rainwater.
 - Provide information to owners of new homes regarding design and installing of water efficient landscapes.
 - Address existing landscapes over 1 acre in size and evaluate water use and provide recommendations for reducing landscape water use.

The City adopted Municipal Code Chapters 14.20 and 17.630, that state residents and businesses are to minimize spray and run off

Promote and implement through the CCCWP several programs and measures to minimize pollutant loading from excess irrigation including, but not limited to:

- 6th Edition Stormwater C.3 Guidebook adopted by ordinance, which promotes to land development professionals landscaping designed to: 1) minimize irrigation and runoff; 2) promote infiltration of runoff where appropriate; and, 3) minimize use of fertilizers and pesticides using pest-resistant plants that are suited to site conditions (e.g., soil and climate).
- Green Business Program, which promotes to businesses a variety of measures such as using drought tolerant plantings, mulching, carefully monitoring irrigation schedules and needs, and implementing Integrated Pest Management.
- Our Water Our World (OWOW) Program, which promotes to consumers and the point of purchase less toxic alternatives to

combating lawn and garden pests.

- Bay Friendly Landscaping and Gardening Training and Certification Program, which promotes to landscapers a variety of measures designed to reduce waste and prevent stormwater pollution.
- The City adopted the following restrictions on June 14, 2016 to promote efficient reasonable water use and is to be continued indefinitely to eliminate water waste.
 - Do not allow landscape irrigation runoff
 - Do not irrigate landscaping within 48 hours after measurable rainfall
 - Washing of vehicles, trailers, boats must be with a shutoff muzzle
 - Do not wash paved or hardscaped surfaces
 - Fountains must recirculate water
 - Do not irrigate with potable water between 8 a.m. and 7 p.m. daily
 - New construction landscaping must be irrigated by drip and micro spray systems
 - Public street medians with ornamental tur may not be irrigated with potable water
 - Drinking water served at restaurants only upon request
 - Hotel guest option of daily linen laundering

Refer to the C.3 New Development and Redevelopment, C.7. Public Information and Outreach and C.9. Pesticide Toxicity Control sections of Program's FY 2017-18 Annual Report as needed (if applicable).
